

Girlfriends

Everybody needs a friend. *Girlfriends* provides women with developmental disabilities a chance to have friends that don't require their parents to provide transportation or oversight.

For a small charge, participants get access to Rideability for their ride to a community activity the group chooses. A staff person of the Stevens Center coordinates the program and attends the activity.

For more information, contact Activities Coordinator Elizabeth Colebrook at 919-776-4048.
